As property owner, tenant or person who has requested notice, please be advised that the Kern County Public Works Department, as operator will be holding an informational public hearing in compliance with Title 27 section 21570(g) (For new or expanded solid waste facilities, hold a public meeting with any affected disadvantaged communities within 180 days of submittal of the permit application) regarding proposed revisions to the Solid Waste Facility Permit (SWFP) for the Mojave-Rosamond Recycling & Sanitary Landfill. The LEA is certified by CalRecycle to enforce state laws and regulations at solid waste sites within the County of Kern, including transfer stations, as well as all active and closed landfills.

Description of Project and LEA's Preliminary Determination

The proposed revisions of the facility permit are for the Mojave-Rosamond Recycling & Sanitary Landfill which currently operates under a Full Solid Waste Facility Permit, operated by the Kern County Public Works Department. The Mojave-Rosamond & Sanitary Landfill facility is located at 400 Silver Queen Road, Mojave , CA 93501 within Kern County.

The purpose of the proposed Permit Revision for Mojave-Rosamond Recycling & Sanitary Landfill is to:

- Increase the permitted facility boundary by 23.41 acres for landfill buffer, from 1688.49 to 1711.9 acres

The location of the facility is identified in the County Siting Element, pursuant to Public Resources Code (PRC), Section 50001(a). This permit is consistent with the standards adopted by CalRecycle, pursuant to PRC §44010.

Impacts with the acreage increase were analyzed in the 2012 Final EIR, Mojave-Rosamond RSLF Permit Revision Project under SCH #1998071109. On October 2, 2012, the Kern County Board of Supervisors held a public hearing and subsequently certified the EIR, and the Notice of Determination was filed on October 25, 2012. The Final EIR fulfilled the CEQA requirements by addressing the environmental issues associated with the continued operation and expansion of the Mojave-Rosamond RSLF.

Purpose of the Meeting with any Affected Disadvantaged Communities

The Public Informational meeting is for any interested parties to learn more about the proposed revision of the Full Solid Waste Facility Permit (SWFP), and to provide comments to the LEA regarding the proposed action. The decision to issue or not to issue the SWFP (revision, modified, or new) must be made within 120 days of the date the application was deemed complete and correct as required by Statute. Prior to issuance of the revised solid waste facility permit, the LEA must request and receive concurrence from CalRecycle.

Where to Get Additional Information

A copy of the proposed revision of the full SWFP is available for public review by appointment in the LEA office located at Kern County Public Services Building, Kern County Environmental Health Division, 2700 "M" Street, Suite 300, Bakersfield, CA 93301.
