SALUTE TO FLAG**Consent Agenda (CA):**

All items listed with a “CA” are considered by program staff to be routine and non-controversial. The “CA” represents the consent agenda for the Board members of EMCAB. Consent items will be considered first and may be approved in one motion. If a member of the audience wishes to comment or ask questions regarding an item or items on the consent agenda, they may do so prior to a vote being taken on the consent agenda. A member of EMCAB may remove any item from the consent agenda and it will be considered in listed sequence with an opportunity for any member of the public to address EMCAB concerning the item before action is taken.

PUBLIC PRESENTATIONS

1) This portion of the meeting is reserved for persons to address the Board on any matter not on this Agenda but under the jurisdiction of the Board. Board members may respond briefly to statements made or questions posed. They may ask a question for clarification, make a referral to staff for factual information or request staff to report back to the Board at a later meeting. Also, the Board may take action to direct the staff to place a matter of business on a future agenda. **SPEAKERS ARE LIMITED TO TWO MINUTES. PLEASE STATE AND SPELL YOUR NAME BEFORE MAKING YOUR PRESENTATION.**

(Bonta D) Alternative birth centers: licensing and Medi-Cal reimbursement.

Current Text: Amended: 4/10/2025 [html](#) [pdf](#)

Last Amend: 4/10/2025

Status: 4/10/2025-Read second time and amended.

Location: 4/8/2025-A. APPR.

Summary: Existing law provides for the licensure and regulation of various types of clinics, including alternative birth centers, by the State Department of Public Health, and makes a violation of those provisions a crime. Existing law defines an alternative birth center as a clinic that is not part of a hospital and that provides comprehensive perinatal services and delivery care to pregnant women who remain less than 24 hours at the facility. Existing law requires a licensed alternative birth center specialty clinic, and a licensed primary care clinic that provides services as an alternative birth center, to meet certain criteria, including, among others, being located in proximity to a facility with the capacity for management of obstetrical and neonatal emergencies, as specified. Existing law establishes the Medi-Cal program, which is administered by the State Department of Health Care Services and under which qualified low-income individuals receive health care services. The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions. Existing law sets forth certain criteria for Medi-Cal reimbursement to alternative birth centers for facility-related delivery costs. Under existing law, as a criterion under both the licensing provisions and the Medi-Cal reimbursement provisions described above, the facility is required to be a provider of comprehensive perinatal services as defined in the Medi-Cal provisions. This bill would remove, under both sets of criteria, the certification condition of being a provider of comprehensive perinatal services as defined in the Medi-Cal provisions. The bill would require the facility to provide pregnancy and postpartum services, consistent with certain standards. The bill would remove the above-described proximity requirement and would instead require a written plan for hospital transfer. The bill would require the plan to include certain requirements with regard to providing the hospital with medical records, speaking with the receiving provider, and providing the patient with the estimated transfer time. This bill contains other related provisions and other existing laws.

Summary: Existing law requires school districts, county offices of education, and charter schools to provide emergency epinephrine auto-injectors to school nurses or trained volunteer personnel, and authorizes school nurses and trained personnel to use epinephrine auto-injectors to provide emergency medical aid to persons suffering, or reasonably believed to be suffering, from an anaphylactic reaction, as provided. Existing law requires school districts, county offices of education, and charter schools to, among other things, store those emergency epinephrine auto-injectors in an accessible location upon need for emergency use and include that location in specified annual notices. Existing law authorizes a pupil to carry and self-administer prescription auto-injectable epinephrine if the school district receives specified written statements from a physician and surgeon or a physician assistant, and from the parent, foster parent, or guardian of the pupil, as specified. This bill would replace all references to epinephrine auto-injectors or auto-injectable epinephrine in the above-described provisions with references instead to epinephrine delivery systems, as defined, and would require school districts, county offices of education, and charter schools to instead provide at least one type of United States Food and Drug Administration-approved epinephrine delivery system, as specified. To the extent the bill would impose additional duties on local educational agencies, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

Summary: Existing law requires the State Fire Marshal to classify lands within state responsibility areas into fire hazard severity zones, and, by regulation, designate fire hazard severity zones and assign to each zone a rating reflecting the degree of severity of fire hazard that is expected to prevail in the zone. Existing law requires the State Fire Marshal to periodically review designated and rated zones and, as necessary, revise zones or their ratings or repeal the designation of zones. Existing law also requires the State Fire Marshal to identify areas in the state that are not state responsibility areas as moderate, high, and very high fire hazard severity zones based on consistent statewide criteria and based on the severity of fire hazard that is expected to prevail in those areas, and to periodically review and make recommendations relative to very high fire hazard severity zones. This bill would, as applied to both state responsibility areas and lands that are not state responsibility areas, authorize the State Fire Marshal, in periods between the State Fire Marshal's review of areas of the state for recommendations regarding an area's fire hazard severity zone, to confer with entities, including, but not limited to, public agencies, tribes, nonprofit organizations, project applicants, and members of the public, on actions that may impact the degree of fire hazard in an area or the area's recommended fire hazard severity zone designation. The bill would authorize the State Fire Marshal to provide a written response to an entity on actions that may impact the degree of fire hazard, and would require this written response to be posted on the State Fire Marshal's internet website. Summary: Existing law, the Confidentiality of Medical Information Act, prohibits a provider of health care, a health care service plan, or a contractor from disclosing medical information, as defined, regarding a patient of the provider of health care or an enrollee or subscriber of the health care service plan without first obtaining an authorization, except as prescribed. The act punishes a violation of its provisions that results in economic loss or personal injury to a patient as a misdemeanor. Existing law requires a provider of health care, a health care service plan, or a contractor to disclose medical information when specifically required by law or if the disclosure is compelled by, among other things, a court order or a search warrant lawfully issued to a governmental law enforcement agency. This bill would instead require a provider of health care, a health care service plan, or a contractor to disclose medical information when specifically required by California law. The bill would revise the disclosure requirement relating to a court order to require disclosure if compelled by a California state court pursuant to an order of that court or a court order from another state based on another state's law so long as that law does not interfere with California law, as specified. The bill would revise the disclosure requirement relating to a search warrant to require disclosure if compelled by a warrant from another state based on another state's law so long as that law does not interfere with California law. By narrowing the exceptions for disclosing medical information, and thereby expanding the crime of violating the act, this bill would impose a state-mandated local program. Summary: Existing law, the Meyers-Milias-Brown Act, contains various provisions that govern collective bargaining of local represented employees and delegates jurisdiction to the Public Employment Relations Board to resolve disputes and enforce the statutory duties and rights of local public agency employers and employees. Existing law requires the governing body of a public agency to meet and

confer in good faith regarding wages, hours, and other terms and conditions of employment with representatives of recognized employee organizations. Existing law requires the governing body of a public agency, and boards and commissions designated by law or by the governing body, to give reasonable written notice, except in cases of emergency, as specified, to each recognized employee organization affected of any ordinance, rule, resolution, or regulation directly relating to matters within the scope of representation proposed to be adopted by the governing body or the designated boards and commissions. This bill would require the governing body of a public agency, and boards and commissions designated by law or by the governing body of a public agency, to give the recognized employee organization no less than 120 days' written notice before issuing a request for proposals, request for quotes, or renewing or extending an existing contract to perform services that are within the scope of work of the job classifications represented by the recognized employee organization. The bill would require the notice to include specified information, including the anticipated duration of the contract. The bill would also require the public agency, if an emergency or other exigent circumstance prevents the public agency from providing the written notice described above, to provide as much advance notice as is practicable under the circumstances. If the recognized employee organization demands to meet and confer within 30 days of receiving the written notice, the bill would require the public agency and recognized employee organization to promptly meet and confer in good faith, as specified. By imposing new duties on local public agencies, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

Summary: Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care, and makes a willful violation of the act a crime. Existing law provides for the regulation of health insurers by the Department of Insurance. Existing law requires a health care service plan or health insurer to ensure that processes necessary to obtain covered health care services, including, but not limited to, prior authorization processes, are completed in a manner that assures the provision of covered health care services to an enrollee or insured in a timely manner appropriate for the enrollee's or insured's condition, as specified. This bill, the California Mental Health Protection Act, would prohibit a health care service plan contract or health insurance policy issued, amended, or renewed on or after January 1, 2027, that provides coverage for mental health and substance use disorders from requiring prior authorization (1) for an enrollee or insured to be admitted for medically necessary 24-hour care in inpatient settings for mental health and substance use disorders, as specified, and (2) for any medically necessary health care services provided to an enrollee or insured while admitted for that care. The bill would authorize the Director of the Department of Managed Health Care or the Insurance Commissioner, as applicable, to assess administrative or civil penalties, as specified, for violations of these provisions. Because a willful violation of these provisions by a health care service plan would be a crime, the bill would impose a state-mandated local program. The act requires certain professionals, including specified health practitioners and social workers, known as "mandated reporters," to report known or reasonably suspected child abuse or neglect to a local law enforcement agency or a county welfare or probation department, as specified. This bill would require the State Department of Social Services, through the State Office of Child Abuse Prevention, to, by no later than July 1, 2027, develop a standardized curriculum for mandated reporters, and to make that training available on its internet website. The bill would, except as provided, require an employer having one or more mandated reporters to ensure completion of the training within the first 3 months of the mandated reporter's employment, or on or before March 1, 2030, whichever is later. Summary: Existing law authorizes specified drowning or injury prevention organizations (DIP organization) to provide informational materials, in electronic or hardcopy form, to a public school regarding specified topics relating to drowning prevention. Existing law expressly authorizes, beginning with the 2024–25 school year, upon receipt of the informational materials, a public school to provide the informational materials to parents, legal guardians, or caregivers of pupils at the time the pupil enrolls at the school and at the beginning of each school year. This bill, beginning with the 2026–27 school year, would expressly authorize a public school to also provide those informational materials to parents, legal guardians, or caregivers of pupils at a period of time agreed upon between the public school and the DIP organization, except that the materials are prohibited from being provided later than the first week of May, as provided. The bill would provide restrictions on a DIP organization that chooses to provide informational materials to a public school, including, among other things, that the DIP organization correspond only with a school administrator or school entity authorized by a school district or school, as provided, to request to work with the public school and that the DIP organization provide written evidence to the school administrator that demonstrates that the informational materials provided by the DIP organization align with the drowning, drowning prevention, water safety, rescue, and swim skills lesson information found on the drowning prevention web page of the federal Centers for Disease Control and Prevention, as provided. The bill would provide that a school administrator who receives informational materials from multiple DIP organizations may consider specified factors when selecting which DIP organization to work with, as provided. Summary: Existing law, the California Community Care Facilities Act, provides for the licensing and regulation of community care facilities by the State Department of Social Services, including adult day programs and residential facilities. A violation of provisions relating to these facilities is a misdemeanor. This bill would authorize a licensed facility, as defined, upon receipt of a request from an individual, or the authorized representative of an individual, who has been diagnosed with seizures, a seizure disorder, or epilepsy and who has been prescribed inhalable emergency antiseizure medication, to designate one or more volunteers to receive training on recognizing and responding to seizures, including by administering inhalable emergency antiseizure medication. The bill would require the department, on or before January 1, 2027, to establish minimum standards for this training, as specified. The bill would prohibit inhalable emergency antiseizure medication from being administered to an individual unless the licensed facility has a seizure action plan for the individual that contains specified information, including, among other things, written authorization for the medication to be administered to the individual at the licensed facility. The bill would require licensed facilities to provide

a specified notice to all volunteers that informs them of their right to rescind an offer to volunteer at any time, including after receiving training, without penalty or retaliation. The bill would require any licensed facility that designates volunteers to ensure that each volunteer will be provided defense and indemnification for any and all civil liability, as specified. The bill would prohibit a trained volunteer who administers inhalable emergency antiseizure medication in compliance the above-described provisions in good faith and not for compensation from being subject to professional review, civil liability, or criminal prosecution for their actions or omissions, as specified. Summary: Existing law, the California Emergency Services Act, establishes the Office of Emergency Services within the Governor's office under the supervision of the Director of Emergency Services and makes the office responsible for the state's emergency and disaster response services for natural, technological, or manmade disasters and emergencies. Existing law requires, during any state of war emergency, or state of emergency when the need arises for outside aid in any county, city and county, or city, aid to be rendered in accordance with approved emergency plans. In periods other than a state of war emergency, a state of emergency, or a local emergency, existing law authorizes state agencies and political subdivisions to exercise mutual aid powers in accordance with the Master Mutual Aid Agreement and local ordinances, resolutions, agreements, or plans. The act requires the Office of Emergency Services, in consultation with relevant local and state agencies, to develop and adopt a state fire service and rescue emergency mutual aid plan that meets specified criteria. This bill would require the Office of Emergency Services to establish the Firefighting Mutual Aid and Prepositioning Program for specified purposes, including to support the implementation of the state fire service and rescue emergency mutual aid plan, as described above, and to establish a reimbursement program to allow firefighting agencies deployed under the state's Master Mutual Aid Agreement to pay for costs, as specified.

Summary: Existing law, the Emergency Medical Services System and the Prehospital Emergency Medical Care Personnel Act, governs local emergency medical services (EMS) systems, authorizes each county to develop an EMS program and designate a local EMS agency, and requires the Emergency Medical Services Authority to receive plans for the implementation of EMS systems from local EMS agencies, as specified. Existing law requires a county to enter into a written agreement with a city or fire district that contracted for or provided prehospital EMS as of June 1, 1980. Existing law requires, until that written agreement is reached, prehospital EMS to be continued at not less than the existing level and the administration of prehospital EMS by cities and fire districts contracting for or providing those services as of June 1, 1980, to be retained by those cities and fire districts, as specified. This bill would authorize a county board of supervisors or the governing body of an entity or a joint powers agency designated as the local EMS agency by the board of supervisors to provide ambulance services to persons located within the county's jurisdiction by specified means, including assigning the duty of providing ambulance services to residents of the county to an existing county department and providing the department with the necessary staffing, vehicles, and equipment to provide ambulance services. The bill would require a county board of supervisors or a local EMS agency to adopt a written policy, including specified requirements, for an emergency ambulance services provider in order to enter into a contract with a provider for emergency ambulance services and would include required provisions for those contracts. The bill would make related findings and declarations.

Summary: Existing law, the California Uniform Controlled Substances Act, categorizes controlled substances into 5 schedules and places the greatest restrictions on those substances contained in Schedule I. Under existing law, the substances in Schedule I are deemed to have a high potential for abuse and no accepted medical use while substances in Schedules II through V are substances that have an accepted medical use, but have the potential for abuse. Existing law restricts the prescription, furnishing, possession, sale, and use of controlled substances, and makes a violation of those laws a crime, except as specified. Existing law defines drug paraphernalia and prohibits, among other things, the manufacture, sale, and possession, as specified, of drug paraphernalia. Existing law excludes from these prohibitions any testing equipment that is designed, marketed, used, or intended to be used to analyze a substance for the presence of fentanyl, ketamine, gamma hydroxybutyric acid, or any analog of fentanyl. This bill would add xylazine to the list of Schedule III substances, as specified. If an animal drug containing xylazine that has been approved under the federal Food, Drug and Cosmetic Act is not available for sale in California, the bill would create an exception for a substance that is intended to be used to compound an animal drug, as specified. The bill would exclude from the prohibitions on paraphernalia any testing equipment to analyze a substance for the presence of xylazine. By creating a new crime, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

Summary: Existing law establishes the Division of Labor Standards Enforcement, headed by the Labor Commissioner, within the Department of Industrial Relations, for the purpose of enforcing labor laws. Existing law prescribes the duties and rights of employers and employees relating to specified labor laws, including, among other things, payment of wages, working conditions, paid sick days, workers' compensation, unemployment insurance, and notice requirements related to inspections conducted by an immigration agency. This bill would establish the Workplace Know Your Rights Act. The bill would require an employer to annually provide a stand-alone written notice to each current employee, and to each new employee upon hire, of workers' rights under state and federal law. The bill would list the areas of workers' rights to be covered by the notice, including, among other things, the categories described above, as well as the constitutional rights of employees when interacting with law enforcement at the workplace, as defined by the bill. The bill would also require the notice to contain a list of the state agencies at which an employee may file a labor, fair employment, data privacy, or civil rights claim. This bill would require the Labor Commissioner, on or before July 1, 2026, to develop a template notice and would require an employer to use the template notice to comply with the notice requirement described above. The bill would also require the Labor Commissioner, on or before July 1, 2026, to develop a video for employees advising them of their rights under the areas listed above and to develop a video for employers advising them of their requirements under those areas.

Summary: The California Emergency Services Act authorizes the Governor to declare a state of emergency, and local officials and local governments to declare a local emergency, when specified conditions of disaster or extreme peril to the safety of persons and property exist. Existing law establishes the Office of Emergency Services within the office of the Governor and charges it with responsibility for the state's emergency and disaster response services for natural, technological, or manmade disasters and emergencies, including responsibility for activities necessary to prevent,

respond to, recover from, and mitigate the effects of emergencies and disasters upon people and property. Existing law requires the Office of Emergency Services, in consultation with, at minimum, telecommunications carriers, the California cable and broadband industry, radio and television broadcasters, the California State Association of Counties, the League of California Cities, the access and functional needs community, appropriate federal agencies, and the Standardized Emergency Management System Alert and Warning Specialist Committee, to develop guidelines for alerting and warning the public of an emergency. This bill would require the office to establish a statewide emergency alert system called California Alert. The bill would require California Alert to utilize Wireless Emergency Alerts authorized by the Integrated Public Alert Warning System, the Federal Emergency Management Agency's national system for local alerting that provides authenticated emergency information to the public through mobile phones within a designate cell tower's coverage area. The bill would require the office to contract with a private vendor that provides alerting systems to send California Alerts to registered phone numbers that are not location based. The bill would require the office to establish standards for issuing emergency alerts to California residents across local jurisdictional boundaries.

Summary: Existing law provides for the licensure of clinics and various health facilities, including skilled nursing facilities and intermediate care facilities, by the State Department of Public Health. Existing law, the Long-Term Care, Health, Safety, and Security Act of 1973, generally requires the department to license, inspect, and regulate long-term health care facilities, including skilled nursing facilities. Existing law makes it a misdemeanor for any person to willfully or repeatedly violate the act, as specified. This bill would require skilled nursing facilities to submit an evacuation plan to the medical health operational area coordinator (MHOAC) that can be implemented when an evacuation is required due to an emergency, natural disaster, wildfire, or other cause. The bill would require the plan to be maintained with the county medical and health disaster plan, as specified. The bill would authorize the MHOAC or other specified person or entity to recommend revisions to the plan, and would require the skilled nursing facility to incorporate those recommended revisions to the extent feasible. By expanding the scope of an existing crime, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

Summary: Existing law establishes the Center for Data Insights and Innovation, within the California Health and Human Services Agency, to ensure the enforcement of state law mandating the confidentiality of medical information. The center is administered by a director who also serves as the California Health and Human Services Chief Data Officer. Existing law further establishes the California Health and Human Services Data Exchange Framework to require the exchange of health information among health care entities and government agencies in the state, among other things. Existing law requires the agency to convene a stakeholder advisory group to advise on the development of implementation of the California Health and Human Services Data Exchange Framework. This bill would require the center, on or before January 1, 2026, and subject to an appropriation in the annual Budget Act, to take over the establishment, implementation, and all of the functions related to the California Health and Human Services Data Exchange Framework, including the data sharing agreement and policies and procedures, from the agency. The bill would expand the California Health and Human Services Data Exchange Framework to include social services information. The bill would expand the entities that are specifically required to execute a data sharing agreement with the California Health

and Human Services Data Exchange Framework and authorize the center to determine other categories of entities required to execute a data sharing agreement. The bill would require the center, no later than July 1, 2025, to establish a process to designate qualified health information organizations as data sharing intermediaries that have demonstrated their ability to meet requirements of the California Health and Human Services Data Exchange Framework. The bill would require the center to annually report to the Legislature on the California Health and Human Services Data Exchange Framework, including compliance with data sharing agreements.

Summary: Existing law finds and declares that prenatal care, delivery service, postpartum care, and neonatal and infant care are essential services necessary to assure maternal and infant health, and that these services are not currently distributed so as to meet the minimum maternal and infant health needs of many Californians. Existing law requires the State Department of Public Health to develop and maintain a statewide community-based comprehensive perinatal services program, as specified, to deliver services in medically underserved areas or areas with demonstrated need. This bill would require the department, in consultation with specified stakeholders, to establish a 5-year pilot project to allow critical access and individual and small system rural hospitals to establish standby perinatal medical services, as defined. To qualify for participation in the pilot project, the bill would require a critical access or individual and small system rural hospitals to meet specified requirements, including, among others, that the hospital (1) be greater than 60 minutes from the nearest hospital providing full maternity services, (2) not have closed a full maternity or labor and delivery department on or after January 1, 2025, and (3) agree to provide maternal and neonatal services, as specified. The bill would require a hospital selected for a pilot program to comply with certain requirements, including among others, having and maintaining specified staff, services, and equipment. The bill would require a physician, as specified, to have overall responsibility for a pilot program under these provisions. This bill contains other related provisions.

Summary: The Planning and Zoning Law requires each county and city to adopt a comprehensive, long-term general plan for the physical development of the county or city, and of certain land outside its boundaries, and requires the general plan to contain specified mandatory elements. Existing law specifies that these provisions generally do not apply to a charter city, but requires a charter city to adopt a general plan that contains the mandatory elements, among other things. Existing law prescribes a process to challenge the validity of a general plan. Among other things, existing law requires a petitioner to request a hearing or trial, as specified. Existing law requires a court to set a date for the hearing or trial to be heard no later than 120 days after the filing of the request, as specified. Existing law authorizes a court to continue for a reasonable time the date of the hearing or trial upon written motion and finding of good cause. Existing law requires a court to grant the petitioner temporary relief if the court grants a continuance to a respondent, as specified. This bill would apply to the above-described process to challenge the validity of a general plan to a charter city and state that this is declaratory of existing law. The bill would limit the period for which a court may continue a trial or hearing, as described above, to no more than 60 days and would additionally

authorize a court to grant a continuance on the court's own motion. The bill would extend the requirement that a court grant temporary relief, as described above, in any instance in which the court orders a continuance, rather than only if the court grants a continuance to a respondent. The bill would require the court to consider ordering additional temporary relief if the court has already granted temporary relief. This bill contains other related provisions and other existing laws.

Ordinance Compliance –

The ambulance provider's extent of ordinance compliance, any notices of exceptions or instances of non-compliance and provider's performance in curing those deficiencies.

In 2024, Hall Ambulance Service was found to be out of compliance with Kern County Ordinance 8.12.170.E.7: "Failure to meet the zone response time standards for three consecutive months in the same zone, or four (4) months in any consecutive twelve (12) month period in the same zone. In at least one of the contracted EOA's in the months of January, February, May, June, July, August, September, October, November, and December, Hall Ambulance Service failed to meet mandatory response times as mandated by the county. Hall Ambulance Service continued to experience staffing shortages and increased call volumes in their EOAs.

Contract compliance –

The ambulance provider's extent of contract compliance, any notices of exceptions or instances of non-compliance and provider's performance in curing those deficiencies.

In 2024, Hall Ambulance service was found to be out of compliance with Agreement # 461-2020, #872-2006, # 875-2006, # 876-2006 and #493-2021 Section 3.1.4: "Failure of PROVIDER to meet the zone response time standards specified in the performance standards for three consecutive months in the same zone, or four months in any consecutive 12-month period in the same zone". In at least one of the contracted EOA's in the months of January, February, May, June, July, August, September, October, November, and December, Hall Ambulance Service failed to meet mandatory response times as mandated by the county. Hall Ambulance Service experienced staffing shortages and increased call volumes in their EOAs.

Sub-contracts-

The ambulance providers extent of sub-contracting or mutual aid.

In 2024, Hall continued to subcontract for out of state paramedics and added EMTs as well and subcontracted with numerous ambulance providers from Los Angeles and Orange County's as well as Pro Safety and Rescue and Trinity Safety in an effort to assure responses to the community.

Hall Ambulance Service provided Mutual Aid outside of their EOA's on 204 occasions:

Ambulance Performance Standards Compliance –

The ambulance provider's extent of compliance with performance standards, including response time compliance, any notices of exceptions or instances of non-compliance and provider's performance in curing those deficiencies.

Response time compliance is complex; there are 25 categories of response time compliance that must be met each month. In addition, there are three other categories of response compliance we measure to ensure that advanced life support (ALS) units are predominately used in the system for pre-hospital emergency calls. See Annual Ambulance Response Time Compliance reports for total call volume, response time compliance, Out of Service Area responses, and Mutual Aid Given, for the calendar year.

In 2024, Hall Ambulance Service showed a 5.03% improvement in response times compliance across all of their EOAs.

Turned Calls-

A *turned call* occurs when an ambulance service fails to respond to a call within its EOA and another agency must respond from outside of the area.

In 2024, Hall Ambulance received mutual aid on 13 occasions.

Data Reporting –

Ambulance provider's extent of cooperation in the submission of required and/or requested data

Grounded in Health

In 2024, Hall Ambulance Service provided all ePCR data as mandated by statute and all data requested by the county. Additionally, in 2024, Hall Ambulance switched from ESO to ImageTrend in order to better align with EMS.

Customer Service Performance –

Demonstrating the ambulance provider's efforts and acumen at providing customer service. The components of this section will include:

Tele911

Ambulance provider's extent of use of the Tele911 system

Tele911 allows for the emergency crew on scene to contact a physician via cell phone or tablet allowing the patient to be treated in their home without the need for transport to a local hospital. In 2024, Hall Ambulance Service utilized Tele911 on 1,743 occasions with 1,418, or 81.35% of the patients being treated at home without transport to a local hospital.

First Response, Tiered System (Fly Car) -

Grounded in Health

1800 Mt. Vernon Ave., Bakersfield, CA. 93306 | 661.321.3000 | www.kernpublichealth.com

The addition of Advanced Life Support, First Response vehicles in our system has had a very positive effect on the ambulance providers ability to clear hospitals and scenes and remain available for those patients that truly need medical assistance. In 2024, Hall Ambulance Service deployed 12 ALS first response vehicles with 6 additional ordered thus increasing the number of emergency response vehicles on the road and providing a greater number of patient care and transport options.

Ambulance Service struggled with response times. John Surface, Chief Executive Officer, and Myron Smith, Vice President of Operations, did an outstanding job in 2024 balancing the system by bringing in resources from outside the county and state to improve responses.

Hall Ambulance response numbers are improving, they continue to contract with local agencies and out of state resources in an effort to maintain staffing levels until they return to full staffing. Hall Ambulance is actively working to add staffing by hosting multiple EMT and Paramedic academy's each year. They have also offered a large signing bonus in an attempt to entice EMTs and Paramedics to the area as well as increasing their base pay to all employees in an attempt to retain and attract staff. Hall Ambulance Service maintains a fleet of 115 ambulances and first response vehicles 24 hours per day and are in the process of increasing these numbers to help meet the need.

2024 Annual Performance Report

Ground Ambulance Service Provider

Liberty Ambulance

Exclusive Operating Areas (EOAs) 6 and 7

Operational Maps

Grounded in Health

Ordinance Compliance –

The ambulance provider’s compliance with Kern County Ordinance Code, any notices of exceptions or instances of non-compliance, and performance in curing deficiencies.

In 2024, Liberty Ambulance service was out of compliance with Kern County Ordinance 8.12.170.E.7: “Failure to meet the zone response time standards for three (3) consecutive months in the same zone, or four (4) months in any consecutive twelve (12) month period in the same zone.” In one or both EOA 6 and 7 in the months of January, April, July, August, and October, Liberty Ambulance Service failed to meet mandatory response times.

Liberty Ambulance Service experienced staffing shortages and increased call volumes in both of their EOAs.

Contract compliance –

The ambulance provider’s compliance with County contract, any notices of exceptions or instances of non-compliance, and performance in curing deficiencies.

In 2024, Liberty Ambulance service was found to be out of compliance with Agreement 873-2006 and 460-2020 in Section 3.1.4: “Failure of provider to meet the zone response time standards specified in the performance standards for three consecutive months in the same zone or four months in any consecutive 12-month period in the same zone.” In one or both EOA 6 and 7 in the months of January, April, July, August, and October, Liberty Ambulance Service failed to meet mandatory response.

Liberty Ambulance Service experienced staffing shortages and increased call volumes in their own EOAs.

Sub-contracts –

The ambulance provider’s sub-contracting or mutual aid.

In 2024, Liberty Ambulance Service did not engage in sub-contracting of staff or vehicles.

Liberty Ambulance Service provided mutual aid outside of their EOAs on 500 occasions to the following areas:

Bakersfield, Tulare County, Caliente, California City, Cantil, China Lake Acres, China Lake NWC, Edwards, Hinkley, Lone Pine, Olancho, Springville, Tehachapi and Trona.

Ambulance Performance Standards Compliance –

The ambulance provider's compliance with performance standards, including response time compliance, any notices of exceptions or instances of non-compliance, and performance in curing deficiencies.

Response time compliance is complex; there are 25 categories of response time compliance that must be met each month in each EOA. In addition, there are three other categories of response compliance we measure to ensure that advanced life support (ALS) units are predominately used in the system for pre-hospital emergency calls. See Annual Ambulance Response Time Compliance for total call volume, and response time compliance, for calendar year 2024.

Turned Calls –

A *turned call* occurs when an ambulance service fails to respond to a call within its EOA and another agency must respond from outside of the area.

In 2024, Liberty Ambulance Service received no mutual aid assistance from Hall Ambulance Service.

Data Reporting –

Ambulance provider's cooperation in the submission of required and/or requested data.

In 2024, Liberty Ambulance Service provided all ePCR data as mandated by statute and all data requested by the county.

Customer Service Performance –

Ambulance provider's efforts and acumen at providing customer service, including:

Inquiry and Compliant Tracking Database –

**CUSTOMER SERVICE TRACKING FOR: Year 2025
LIBERTY AMBULANCE SERVICE EOA: 6**

Date:	Source:	Type:	Outcome:
2/2/2024	Hospital	Customer Service	Crew indicated backed into a chair accidentally. Crew was reminded to be professional and courteous. No further action taken.
7/9/2024	Pt. Family	Customer Service	Advised family the crew had been spoken to and their intent. Pt. Family Member only asked that they don't treat people like that in the future. I advised they had been coached on professionalism. No further action.
9/20/2024	Pt. Family	Clinical	Contacted Pt. Family member and advised that we discussed the issue with the crew and they had reasons for their decisions. Pt. Family Member did not agree but appreciated the follow up.
11/26/2024	Pt. Family	Clinical	Crew reminded to maintain a professional demeanor while attempting to diffuse hostile family members and do their best to keep everyone informed. Based on the discussion with the complainant, complainant was unwilling to take any responsibility for own behavior creating a hostile environment, committed to acting the same way in the future, and admitted to dangerous illegal actions while driving (running red lights and following a code 3 ambulance closely). Further crew education for de-escalation scheduled.

Customer Survey – If the Program required a customer service survey be conducted, the results of the survey shall be included.

In 2024, the Program did not request a customer service survey.

Clinical Performance –

Ambulance provider's compliance with the clinical performance requirements in the following categories:

Maintains all required clinical equipment in good working order

Liberty Ambulance Service maintains a fleet of 8 ambulances on a 24 hours per day schedule. They operate within all county policies, procedures and protocols which includes maintaining all mandatory equipment.

Adherence to clinical protocols

In 2024, there were no issues with Liberty Ambulance Service staff regarding clinical protocols.

Quality Improvement Process

Liberty Ambulance Service has a robust Quality Improvement (QI) program and fully cooperates with the County on all QI requests.

Qualifications of clinical personnel (including certifications and continuing education)

All Liberty Ambulance Service staff are state certified and locally accredited and therefore qualified to provide proper patient care.

Emergency Medical Dispatch (EMD) QA compliance

Liberty Ambulance Service contracts with Hall Ambulance Service to provide Emergency Medical Dispatch and is therefore in compliance.

Participation in County clinical processes

Liberty Ambulance Service staff attended all mandated clinical training and update courses held in 2024 and are willing participants in the County's clinical process.

Active participation in Program projects, committees, task forces, etc.

Liberty Ambulance Staff participated in all required projects, committees, and task forces.

Summary

Staffing issues continued to be at issue at Liberty Ambulance Service as well as increased call volumes as primary care physician appointments were difficult to obtain in a timely manner causing more patients engaging the 911 system. As a result of these and other factors Liberty Ambulance Service struggled with response times. Erin Cocclione, Director of Operations and Brian Baskin, Operations Manager, did an outstanding job in 2024 balancing the system in the lake and Ridgecrest area.

Liberty Ambulance response numbers are improving, they are close to being fully staffed and are operating a fleet of 8 ambulances, 2 Advanced Life Support First Responder units and 1 Critical Care unit 24 hours/day. To retain staff, Liberty offered retention bonuses for both paramedics and nurses in the amounts of 3 and 5 thousand dollars per year for three 3 years.

MADDY FUND REQUEST REPORT –

Purchase of Kardia-12 Lead ECG Devices

Background

The ability to rapidly assess and monitor a patient's heart health in emergency situations is essential for providing timely and accurate treatment. The Kardia-12 ECG Device is a portable, easy-to-use tool that would allow our EMTs to quickly obtain a 12-lead electrocardiogram (ECG) of patients in the field, enabling real-time diagnosis and life-saving decisions. This capability will be invaluable in identifying and responding to cardiac emergencies, such as heart attacks, arrhythmias, and other critical conditions, ensuring that we can provide the highest level of care and would mark the first time EMTs would have this capability in Kern County.

The total cost for the purchase of 100 Kardia-12 ECG Devices, is \$180,000. This investment will help us improve patient outcomes, reduce time to treatment, and enhance the overall efficiency of our EMS system. Furthermore, the devices are compact, user-friendly, and integrate with our existing systems, making them an ideal solution for our operations.

Kern County EMS is requesting the release of Maddy Funds in the amount of \$180,000 for the purchase of 100 Kardia-12 Lead devices in order to equip our EMTs with these life-saving tools. The addition of the Kardia-12 ECG Devices will allow us to better serve our community, ensuring that we are fully prepared to handle cardiac emergencies and provide the best possible care.

Intent of Release of Maddy Funds

As approved by County Counsel, "The intent for releasing the discretionary Maddy funds by the county is to heighten, increase and improve, from the normal and customary base operations, the delivery of prehospital care to the people of Kern County. This would include programs, services, training, equipment and/or learning materials that would have a high likely hood to improve the Kern County EMS System of care from its normal and customary base operations. The requested item, service or training must benefit all EMS stakeholders, especially the community at large, in such a way that it improves the quality and delivery of prehospital care."

Recommendation

The request for the purchase of 100 Kardia 12 Lead Devices for the purpose of the rapid identification, treatment, and transport of patients experiencing cardiac emergencies meets the intended use of the discretionary Maddy funds. It will provide EMS providers the ability to identify, treat, and transport patients to the most appropriate hospital more rapidly than ever before in our system. This will benefit the community at large ensuring patients are treated

and transported to the most appropriate hospital, thus decreasing heart tissue death and increasing the chances of survival in our county.

Therefore, IT IS RECOMMENDED, your Board approve this request for the release of discretionary Maddy Funds for the purchase of 100 Kardia 12 Lead devices.

The modern way to capture critical heart data.

The 12-lead ECG experience just got easier. Now you can capture accurate heart data with a degree of simplicity never before seen in a 12-lead system.

Portable

Kardia 12L is battery-operated. And weighing in at just 0.3 pounds, it fits easily in your lab coat pocket.

Clinically Efficient

Even healthcare professionals with infrequent ECG experience can acquire an accurate ECG in minutes.

Easy to Use

With a simple five-electrode setup and no wires to detangle, Kardia 12L is intuitive and less error-prone.
