Job Hunting can be a stressful and exhausting process if you are not prepared. Having strategies when beginning can help broaden and simplify the process. We created a guide for completing a job application so that you are more prepared when you're ready to apply.

- Read the instructions carefully before you begin writing
- Complete all sections, even if you have a resume; if it doesn't apply, write "N/A"
- Print neatly, using your best handwriting and grammar
- When asked what job you are applying for, enter a specific job title
- Explain in details all of your past work experience

Completing a Job Application

- Don't forget to put down activities such as volunteer work, hobbies, civic work, etc.
- Decide who your references will be ahead of time (i.e. teachers, family friend, etc)
- Sign your name and date the application
- Double-check your completed application before turning it in
- Return your completed application as soon as possible
- Return the application to the manager or person doing the hiring; dress professionally when you submit it. You may get an interview on the spot!
- Follow-up with the person you gave it to a week later or when they tell you to follow-up
