Description of any discrepancies noted (include details about each discrepancy and how each was resolved; also include anything unusual observed during the manual tally process or anything that may improve the manual tally process):

Batch 10002020 had two contests with discrepancies during the tally. Upon review, one contest for State Superintendent was tabulated as an undervote due to the voter using light pencil to mark the bubble causing the selection to not be read. Another ballot had a vote for the Secretary of State contest tabulated as an undervote due to the voter marking their selection outside of the bubble. To resolve this, both selections were enhanced and the VBM batch was ran through the tabulator again. The batch went through the adjudication process. The tabulated counts and the tally were then reconciled.
