RETIREE CERTIFICATION

INITIAL

I have read and understand the eligibility policy and certify that any dependents listed on this form (if applicable) are eligible.

INITIAL

I understand that I *may* have dependents that are eligible for coverage that I have not listed on this form. By not listing them on this form I have chosen not to enroll them at this time. I waive my right to request enrollment for such dependents until either the next open enrollment or within the 30 days following a permitting event. I understand that open enrollment is not a guaranteed annual event.

INITIAL

I understand that it is my responsibility to notify Kern County Health & Wellness of any changes in eligibility either for myself or my dependents. I am aware that NO refunds of retiree premiums will be made if a dependent(s) is/are not removed timely.

INITIAL

I understand that no retiree or their dependent is permitted to continue enrollment in any plan that is for participants under age 65 on or after the first day of the month in which they turn age 65.

INITIAL

I understand that retiree medical plan coverage does not include the dental or vision plans available to active employees. I may wish to enroll in the retiree dental and/or retiree vision plan(s). I may wish to elect COBRA coverage for dental and/or vision, if applicable.

INITIAL

I understand that I may dis-enroll at any time. If I do so, I may not re-enroll until the next open enrollment and I will forfeit any County contribution toward my coverage.

INITIAL

I understand that if a retiree or their dependent becomes eligible for Medicare due to a disability, they may continue to be enrolled in the Under 65 Health Plans until they reach age 65. Once the retiree or their dependent becomes eligible for Medicare, the County Self-funded plans will only pay as a secondary plan when allowed by Medicare.

I have read and understand the foregoing statements and the Kern County and Retiree health benefits eligibility policy. I certify under penalty of perjury under the laws of the State of California that all statements are true.
