RETIREE CERTIFICATION

INITIAL

I have read and understand the eligibility policy and certify that any dependents listed on the attached enrollment form submitted (if applicable) are eligible.

INITIAL

I understand that I may have dependents that are eligible for coverage that I have not listed on the attached enrollment form. By not listing them on this form I have chosen not to enroll them at this time. I waive my right to request enrollment for such dependents until either the next open enrollment or within the 30 days following a permitting event. I understand that open enrollment is not a guaranteed annual event.

INITIAL

I understand that it is my responsibility to notify Kern County Health & Wellness of any changes in eligibility either for myself or my dependents. **I am aware that NO refunds of retiree premiums will be made if a dependent is not removed timely.**

INITIAL

I understand that no retiree or their dependent is permitted to continue enrollment in any plan that is for participants under age 65 on or after the first day of the month in which they turn age 65.

INITIAL

I understand that retiree medical plan coverage does not include dental nor vision coverage. If I wish to enroll in dental and vision, I will need to complete separate enrollment forms.

INITIAL

I understand that I may disenroll at any time. If I do so, I may not re-enroll until the next open enrollment, and I will forfeit any County contribution toward my coverage.

INITIAL

I understand that if a retiree or their dependent becomes eligible for Medicare due to a disability, they may continue to be enrolled in the Under 65 Health Plans until they reach age 65. Once the retiree or their dependent becomes eligible for Medicare, the County Self-funded plans **will only pay as a secondary plan when allowed by Medicare.**

I have read and understand the foregoing statements and the Kern County and Retiree health benefits eligibility policy. I certify under penalty of perjury under the laws of the State of California that all statements are true.
